Karen

Woodford Way

Karen, let's head out of town
I know a place down south
When things are easy

And Karen,
i know you don't agree
I only hope that someday you will see
through the damage done
the better side of me

So let's leave our broken parts right here,
On the side of the road
Karen don't you want to go

And Karen, we can change our names
and leave our past behind
I said it's not that easy

And Karen, i know you haven't yet
I only hope that someday you will forget
all the damage done"
When looking back on me

So let's leave our broken parts right here,
on the side of the road
Karen don't you want to go
