

# It Turns Me Inside Out

Conway Twitty

In a way I'm glad it's over  
Even though it's gonna hurt me once you're gone  
I can learn to live without you  
Give me time and I can make it on my own Lovin' you to me came easy  
Now losing you will change my life no doubt  
And in a way I'm glad it's over  
In another way it turns me inside out In a way I guess it's better  
Even though there's nothing good about goodbye  
But I know I couldn't hold you  
Now you've found your wings and you need room to fly And it's for sure I'm gonna miss you  
But I guess that's what goodbye is all about  
And in a way I'm glad it's over  
But in another way it turns me inside out On the one hand I know  
I'll be better off once you're gone  
But I find a lot of heartache on the other  
And I can't say I'll look forward to those nights I'll spend alone  
And I wonder w! ill there ever be another Loving you to me came easy  
Now losing you will change my life no doubt  
And in a way I'm glad it's over  
In another way it turns me inside out Yes, in a way I'm glad it's over  
But in another way it turns me inside out
