

# Electric Band

## Wild Flag

All right, say my name  
Say it again and I'll make it rain in your mind  
You're uptight, satellite  
Come meet me and we'll go for a ride in your mind  
All we are is dust and air  
Play the part of the dragon slayer  
Dance all night or turn to sand  
Come on and join our electric band  
Call me anytime  
I'll be waiting for you to come back from your mind  
Go out every night  
Don't leave me alone to swim to my own island  
All we are is dust and air  
Some are friends and some are strangers  
While the wind is blowing in time  
Come on and join our electric mind  
Run if you can, here comes the electric band  
Run if you can, we're following you, ooh oh  
[x2]  
Ooh oh, ooh oh, ooh oh
