## **After the Snow**

## **Modern English**

The rhythm of the rain gives an off beat on the window pane Like an angel crying from the skyI can see its beauty

After the snow

I can see its beauty

After the snowThe temperature's dropping rapidly Normal service will shortly be resumedI can see its beauty

After the snow

I can see its beauty

After the snow

After the snowI stood and watched the dark sky rise

With glaring sunlights in my eyes

I thought of all the times gone by

And laughed aloud at the crimson skyAfter the snow

After the snow

After the snow

After the snowAfter the snow

There's something born

After the snow

There's something bornAfter the snow

There's something born

After the snow

There's something bornAfter the snow

After the snowThe rhythm of the rain gives an offbeat on the window pane Like an angel crying from the skyI can see its beauty

After the snow

I can see its beauty
