

Starfield Road

Sonic Youth

The turbo goes to rocket put your kiss in my hand
Sensate your belly down
A bend down round this garbage can
A pow pound down dirty starfield road
A hot ham slap it muscle skin jam load
A blam bam adds explosion to the lamb
Jesus is screaming your name
A violent loving yea
A kissing golden, we're going insane
Oh but where is the shame, when the star pet is to blame
Aah you butt cheeks can't stay
As I spleen my name in flame
