

# Be Long

## Little Daylight

Deep in my heart there's a fire burning  
I need you like a drug  
Whoa-oh you keep me wanting  
Whoa-oh I've come undone  
Nights with you like tunnel vision  
Racing through the dark  
Whoa-oh heart beating faster  
Whoa-oh it tears me up Oh oh  
Like an overdose  
Baby let's take it too far tonight  
You're my favorite high  
Oh oh  
Like an overdose  
Thinking I'm crossing the line this time  
Taking me for a ride See your face in my reflection  
Whisper more and more  
Like a tiger in it's chamber  
Clawing lines into my door  
Counting down until I see you  
To get me through the day  
Whoa-oh I know I'm falling  
Gonna ride it anyway Oh oh  
Like an overdose  
Baby let's take it too far tonight  
You're my favorite high  
Oh oh  
Like an overdose  
Thinking I'm crossing the line this time  
Taking me for a ride Feels like gravity  
Takes a hold of me  
Lost reality now  
Drown myself in these  
Painted imageries  
I don't wanna come down Oh oh  
Like an overdose  
Baby let's take it too far tonight  
You're my favorite high  
Oh oh  
Like an overdose

Thinking I'm crossing the line this time  
Taking me for a ride Oh oh  
Like an overdose  
Baby let's take it too far tonight  
You're my favorite high  
Oh oh  
Like an overdose  
Thinking I'm crossing the line this time  
Taking me for a ride
