

# The Science Of Lies

## Demon Hunter

Bow down- before the god of cash  
The philosophy of modern man is leaking fast  
No foundation for the fram by which you set your mind  
Just a legacy for the feeble to findDesperation breeding faith unto a pitiful lie  
"Give us your money and we'll open up your gullible eyes"  
No redemption, not a reason, but a symbol of why  
This digression of surrender is the science of lies[Chorus]  
Believe the sacred blasphemy  
They feed  
That hollow voice inside your head  
Receive the fleeting fallacy  
They breathe  
Trace every step from where you were led  
Look back and tell yourself what they said  
(Now flee)And now you feel it pulling you down  
How can you buy into a faith that hasn't permanent ground?  
Give me blood-soaked, sacrificial worth  
Not the artificial product of a fraudulent birthGive me selfless, consecrated reprise  
Not a worthless contribution to the science of lies[Chorus]Feel it pulling down[Chorus]
