Nothingface

Before this starts
I just want to tell you
That you could fuck usLove me, so I can relax
So I can aim straight
So I can do right for usI know you're inside
I know you're cold
I know you're saddened by the loss of thoseThey really loved you
And now you're cold
I'm sorry that you're next, so goWho's next? All right
With the fucking bruised knees in the black shirt
Screaming, all right
In the bloody back seat of my black hearseHanging, all right
On a fucking meat hook in my basement
Who's next? All right
It's everybody's time to dieMy mind does this
I can't stop the rage inside
My hands againHate me, so I can relax
So I can kill you
So I can do right for usNo more pretending
Were all alone
I want to hear just why you left us allWe really loved you
But now we're cold
I'm sorry that you're next to goWho's next? All right
With the fucking bruised knees in the black shirt
Screaming, all right
In the bloody back seat of my black hearseHanging, all right
On a fucking meat hook in my basement
Who's next? All right
It's everybody's time to dieYeah, fuck, you'll die you fucking bitchI, well, I can't deny
Forensic lies
Or hateful sighsI, well, I can't deny
Forensic lies
Or hateful sighsI'll wait for you
I'll wait for you
I'm glad you knowI cannot take this anymore
Youve pushed me to the limits
You sold us this beforeBut I still know
We'll find the right one to fight with us now
And I know that you're set on us

You're set on us, you're set on us
