

# Same Solution

## Nothingface

Before this starts  
I just want to tell you  
That you could fuck us Love me, so I can relax  
So I can aim straight  
So I can do right for us I know you're inside  
I know you're cold  
I know you're saddened by the loss of those They really loved you  
And now you're cold  
I'm sorry that you're next, so go Who's next? All right  
With the fucking bruised knees in the black shirt  
Screaming, all right  
In the bloody back seat of my black hearse Hanging, all right  
On a fucking meat hook in my basement  
Who's next? All right  
It's everybody's time to die My mind does this  
I can't stop the rage inside  
My hands again Hate me, so I can relax  
So I can kill you  
So I can do right for us No more pretending  
Were all alone  
I want to hear just why you left us all We really loved you  
But now we're cold  
I'm sorry that you're next to go Who's next? All right  
With the fucking bruised knees in the black shirt  
Screaming, all right  
In the bloody back seat of my black hearse Hanging, all right  
On a fucking meat hook in my basement  
Who's next? All right  
It's everybody's time to die Yeah, fuck, you'll die you fucking bitch I, well, I can't deny  
Forensic lies  
Or hateful sighs I, well, I can't deny  
Forensic lies  
Or hateful sighs I'll wait for you  
I'll wait for you  
I'm glad you know I cannot take this anymore  
Youve pushed me to the limits  
You sold us this before But I still know  
We'll find the right one to fight with us now  
And I know that you're set on us

You're set on us, you're set on us
