

I Understand

Joe

I understand, I understand
I understand, I understand
Girl, I understand, I understand
See, I understand You used to be the life of the party
But now you walk with your head hung low
'Cause he ride your nerves like a Harley
And it's obvious to those who know Now you taken to wearing make up
To hide the marks that wasn't there before
In your heart you wanna break up
Can't find the nerve to walk out the door Why don't you take those chains and break those chains
No love should cause you so much pain
Why don't you walk away before it gets too late
Leave him now
(See I understand)
Love should never hurt You should have left the first time that he hit you
But instead you just stayed and cried
Your friends and family tried to tell you
But you told them to mind their B.I.A career girl with a bright future
You had so much going on in your life
Since that man came along and abused you
Your life has been everything but right Two babies at home, you can't pay the damn loan
Girl, it's all wrong, you gotta move on
You say you really love him, I understand lady, but tell me Why don't you take those chains and break those chains
chains
No love should cause you so much pain
Why don't you walk away before it gets too late
Leave him now
(See I understand)
Love should never hurt Why don't you leave that man, go on your own
You're so fine, you are strong
Spread your wings, fly away
Girl, don't cry another day Don't give up, take a chance
Find your way, take a stand
You'll find that there's a better plan out there for you Why don't you take those chains and break those chains
No love should cause you so much pain
Why don't you walk away before it gets too late
Leave him now
(See I understand)
Love should never hurt Why don't you take those chains and break those chains

No love should cause you so much pain
Why don't you walk away before it gets too late
Leave him now
(See I understand)
Love should never hurt
Why don't you take those chains and break those chains
No love should cause you so much pain
Why don't you walk away before it gets too late
(See I understand)
