

Holy Roller

Mother Love Bone

Oooh baby gotta put me back together
I need your smooth dog lovin' oh, yeah
And so I'm sending off the little monster
Gonna turn it up inside your head And do you believe?

Holy roller
Like a holy roller
Holy roller
Like a holy roller
Holy roller
Like a holy roller

Into my head I said you loin queen parader
I'm gonna get you down on all fours, yeah yeah yeah
And then you gotta show me what you're made of little darling
I'll meet you child by the backdoor babe Holy roller

Like a holy roller
Holy roller
Like a holy roller
Holy roller
Like a holy roller, roller

My, my, my, my, my into my head The Lord won't break down That's right
All right you people

See I, see I got somethin' to say to you people out there
You gotta listen to me people, you gotta listen to me
Yeah, the Lord's comin' down people

Yeah He's gonna take you whole, He's gonna eat you whole people
Like a big grizzly bar comin' out of the closet and eat you whole

Ya see the Lord's gonna come and get you people and you gotta beware
Because the Mother Love Bone camp knows what to do about it You see I been around I seen a lotta long haired
freaks in my day

But those boys in Mother Love Bone
I'll tell you they know what's right for you
You know they're like malt-o-meal for you, they're good for you
They're like soup, they're like nothing bad, let me tell you that much
I tell you people, the Lord's comin', and if you don't believe
And if you don't love rock awaits you people
Yeah lo and behold believe in what I can convey to you
I tell you people, old, lo and behold Holy roller
Like a holy roller
Holy roller

Like a holy roller
Holy roller
Like a holy roller, roller, roller
Into my headHoly roller
Into my head
Holy roller
Yeah, won't talk babyHoly roller
Like a holy roller, roller
Yeah come on
Holy roller
Like a holy roller, right
Right
Into my head
