

Somewhere In Time

[John Barry](#)

Somewhere in time
We met on timeless hills
And in the evening mist we kissed
And time stood still
Before the dawn, we found forever
Moments are timeless when I feel your caress
You'll always be inside of me
And I know when love is true
It's always with you
Somewhere in time
I came to realize
Love never goes
Love never goes
Once it has touched your heart
Just like the strength of wine that's left
As two lips part
A taste of love will linger after
I know the meaning of all that I see
You'll always be inside of me
And I know when love is true
It's always with you
Somewhere in time
I came to realize
Love never goes
