

# Over My Head (Soundtrack Version)

[Semisonic](#)

Long ago I was told there were riches inside of me  
Someone old hid the gold and the finding was my affair  
In those days when my ears heard a story my mind believed  
So I searched with my greed in the sunshine for all to see there I'm in over my head in this game  
Over my head  
And I'm afraid I'm never gonna find my way back to where I've been Yes you know many tried none succeeded  
my mind to train  
When the fools came to lay down their money I laughed, uncool  
Saw the mouth of the whale just in time to go down the drain  
Now I float with my boat in the darkness and play the fool I'm in over my head in this game  
Over my head  
And I'm afraid I'm never gonna find my way back to where I've been
