River

Seinabo Sey

You lead me to the water
Said here's my hand
You took me to the wild
Said soon you'll understandI came to cross it
I came to leave
I came to see the future
Will you tell me when I'm near?I understand you now x3
You had to
I understand you now (yes I do) x2
I understand you nowMy intentions stay the same
Waiting for you to call my name
You had me where you wanted
But I still feel shameI can't stop
But I still can make you smile
I can try for days
But I still won't make you stayI understand you now (yes I do) x2
I understand you now
You had to
I understand you now (yes I do) x2
I understand you nowYou say I took all of the fire
I made sure that we lost desire
I might have said it first but you have made it true
Now all that you can say is that I shouldn't have let youI understand you now (yes I do) x2
I understand you now
I understand you now (yes I do) x2
I understand you now
You had to
