

# St. Veronica

## Cane Hill

You told me to smile so I smile on command  
You told me to scream so I did it again  
I jump when you say cause I thought you would lead  
But now you've crawled in my mind and you're not planning to leave  
If you come, if you go, if you stay  
I'll remember your face either way

[Chorus]

I used to be an angel, now I'm angel dust  
I used to be an angel, now I'm angel dust  
I lay on my side just to give him a reason  
Yeah I drink every night just to make it seem easy  
If I don't give him his way he just cuts off my wings  
Am I a fucking disgrace? That's what he wants me to think  
I used to be an angel, now I'm angel dust  
I used to be an angel, now I'm angel dust  
I'll skin the skin I'm living in  
No one ever told me it would be like this  
Yeah I wanna feel better, but I just don't fit  
I'll skin the skin I'm living in  
No one ever told me it would be like this  
Yeah I wanna feel better, but I just don't fit  
I used to be an angel, now I'm angel dust  
I used to be an angel, now I'm angel dust  
I got it, I got it  
I got it, I got it  
I got it, I got it, I got it  
No one, no one, no one
