

# I'm Gonna Make It (feat. Moran Levi)

[Angerwolf](#)

I'm gonna make it

Lyrics and composition by Moran Levi

If you had a doubt

I will break it

You will bite your tongue

I will say it loud

You won't miss it

I'll put up the show

So put your hands together

Forget what you all know

Be ready for some pleasure

For your ears and minds and soul

Cause I'm gonna make it

I'll be the one you want to have here

I'm gonna make it

I'll be the one you need to listen

You will want to hear

I will play it

Keep it nice and slow

You will love the sound

I'll create it

Have you on my flow
