Babylon

Gemini Syndrome

Everybody turn with a blind eye
To a diet of death and cyanide
(Just pre-)
Just pretend that
(Tend youâ€™re)
Youâ€™re okay
(Okay)
And it will all be fine

Welcome to the fall of Babylon
(Welcome to the fall)
And the rapture of the world
We built it on

The scenery is quintessential and
And our ignorance is fundamental
To our pending demise
Now I claw out my eyes

Welcome to the fall of Babylon
(Welcome to the fall)
And the rapture of the world
We built it on

Is there no repentance
For me here?
Is there any other way
For me to try
For death to die

Kiss your life goodbye
And hold the sun
Feel the fire in my eyes
Itâ€™s only just begun
Itâ€™s only just begun

Welcome to the fall of Babylon
(Welcome to the fall)
And the rapture of the world

We built it on

Welcome to the fall
Goodbye Babylon

Goodbye
