

Only You

Packy

[Verse 1]

They say I'm the one that changed
Everything is different now and I'm the one to blame

Hold up

Walk with me, baby

Please tell me why I ain't heard from you lately

"It's a two way street" you'll say

"Pick up the phone, call me" you'll say

Wrapped up in your own world

You think about me today?

My fault

We got some issues, but I know you got me and you know I miss you

I got a little attention

And you don't think I need you now

[Hook]

Only you

It's only you (x4)

[Verse 2]

I got a little attention, but all I ever wanted was my girl

I know I'm not perfect

I know I got feelings that I don't let surface, I know

You been there from get go

I don't deserve it but please baby don't let go

We could be so special

We could be everything

They say they got me now

Girl you've had me since seventeen

I got a little attention

And you don't think I need you now

[Hook]

[Verse 3]

You mad you don't hear from me first

Before I tell a soul I put my soul into a verse

People start talking, hit you on the blind side

I'm sorry, should've had the hindsight

Forgive me, caught up in the limelight

Put you on hold, like wait 'till the time's right
Tick-tock, where the days go
Wish for the old nights, we could just lay low
We could just
Lay down (x3)
We could just
Lay down (x3)
I got a little attention
But all I really wanted was you

[Hook]
