Somebody Loves You

Crystal Gayle

It's been a long time since you went away
I stop to think of you 'most everyday
With all my heart, I'm hoping you're okayGuess who loves you?
Somebody loves youI couldn't reach you by the U.S. Mail
You didn't leave a very easy trail
I tried the telephone to no availGuess who loves you?
Somebody loves you, I doSomeone loves you
Somebody loves youMind over matter is the game I play
I'll never reach you any other way
So I send this one thought to you everydayGuess who loves you?
Somebody loves you, I doSomeone loves you
Somebody loves you, I doSomeone loves you
Somebody loves you
