

Only Wanna Give It To You

Elle Varner

[Verse 1]

Thought you were just another romeo
The shoe you pass by in the store, window
But soon as I got home I wish I'd bought you instead
I got it bad, I'll take the black, take the navy & red
No other man has ever ever had quite this effect
I sleep alone cause there's no room in my bed for any other lover
With no gun to my head

Your kisses hold me hostage and I don't wanna stop it[Hook]

Cause I only wanna give it to you

And I want you more than a new pair of shoes

I only wanna give it to you

And I sure do hope that you feel like I do[Verse 2]

I came before this digital ocean where folks only move in digital motion

But you're so classic I want you more than my Adidas

All the bees are gettin at you cause your honey is sweeter

I need ya,

with no gun to my head

Your kisses hold me hostage and I don't wanna stop it[Hook]

Cause I only wanna give it to you

And I want you more than a new pair of shoes

I only wanna give it to you

And I sure do hope that you feel like I do[Bridge]

Can't let this go what can I say?

I just don't know

My love ain't no trip for the weekend

Here to stay for all of the seasons

You're the weakness that I can't control[J Cole Verse]

Baby you all I need to get by

You fly, so you're all I need to get high

You got it? so put ya number in this camera phone

And we can live like the camera's on

No script, though.. these boys claiming they ball

Got no grip, though

My flow switchmode, it's so schizo

So i'm the one that your girl blow a kiss for

You've got to love me. Cole World, no snuggie

Baddest girls hug me, my mind on you though

You're hoping I'm the one

But I already knew though
It ain't no secret that I get around, true
But girl, you make me want to settle down with you
Get a crib with a view, lay up in the bed, make a kid, maybe 2
All my exgirlfriends gon have to get a clue
Cause the rumors that you heard about is true! [Hook x2]
Cause I only wanna give it to you
And I want you more than a new pair of shoes
I only wanna give it to you
And I sure do hope that you feel like I do
