All I Am

36 Crazyfists

Just when you need it
Never see it in your torn world
And seems like a plastic world
One just like you, one just likeAll I am is all I'll be
Can't be much more than me
A deep end falling tragedy
All I am is all I'll beBroke, believe it, deceiving
In your world
And I knew him, someone falling
One just like you, one just likeAll I am is all I'll be
Can't be much more than me
A deep end falling tragedy
All I am is all I'll beTake inside and be more careful
Defeat loss and glare at fall
To get you of where I'm going
Following all down, follow it all down
Following all down, follow it all down
Following all down, follow itSo I've got you wrapped up inside
So I've got you inside
And plastic world, crumbles down
One just like you, just likeAll I am is all I'll be
Can't be much more than me
Deep end falling tragedy
All I amTake inside and be more careful
Defeat loss and glare at fall
To get you off where I'm going
Following all down, follow it all down
Following all down, follow it all down
Following all down, follow it
