

# Words of a Fool

## Love and Rockets

Let the demons in  
Let your lover fly away  
Do you understand  
These are the words of a fool? Let the demons in  
Let your lover fly away  
Do you understand  
These are the words of a fool?  
Words of a fool, words of a fool Though it's very pretty  
This cup is made of gold  
Do you understand  
These are the words of a fool?  
Do you understand  
These are the words of a fool? I want to touch the hand that feeds you  
You take my breath away  
I look at you and I just want to  
Come, come, come, come, come Just want a taste  
Just want a taste Let the demons in  
Fly away  
Do you understand? I want to touch the hand that feeds you  
You take my breath away  
I look at you and I just want to  
Come, come, come, come, come Just want a taste, just want a taste  
Just want a taste, just want a taste  
Just want a taste, just want a taste  
Just want a taste
