

# My Heart Went Cold

## The Thermals

Far from the cold  
I fall in the dark  
the damage is a drain  
it treats me apart  
i know I can repair  
but I don't know where to start  
my love is a void  
worlds away  
words I needed to say  
my heart went cold  
this I know  
I pushed you away  
a whoa oh oh  
I left my heart untold  
I couldn't keep you warm  
my heart went cold  
far from your voice  
lost in the night  
the distance between us  
is fatal  
it swallows the light  
I know I can resolve  
but I always fall to fight
