

Baby's Got A Temper (Main Mix)

Prodigy

You see me coming from a mile off
Once again ignite the skyline
She's gonna be printed on money
Just like your royal family
This time there can be no funeral
I'm vibing, can't you feel me? We love rohypnol, she got rohypnol
We take rohypnol
Just forget it all We love rohypnol, she got rohypnol
We take rohypnol
Just forget it all
Just forget it all This baby's got a temper
This baby's got a temper
This baby's got a temper
You'll never tame her You can see me do another parallel
Better bow down, you're not worthy
Last time I'll be your prisoner
No name, no number
Shooting through the trap door
What I think don't matter anymore We love rohypnol, she got rohypnol
We take rohypnol
Just forget it all We love rohypnol, she got rohypnol
We take rohypnol
Just forget it all This baby's got a temper
This baby's got a temper
This baby's got a temper
You'll never tame her Rohypnol, rohypnol, rohypnol This baby's got a temper
You'll never tame her
