Don't Tell Me

Taj Mahal

Girl, where'd you get that frown?
Don't tell me baby
And who would let you down?
Don't tell me baby, come on nowWe've been talkin' bout
The same old things like whether
We'd be worrying about
It if we were together, yeahAnd who woulda broke your heart?
Don't tell me, baby
About well my favorite part
Don't tell me baby, childIn the time it takes for you to think it over, yeah
I'll be closer than the seat belt on your shoulder
So, won't you come on over, girl?I'm a repo man, it's sad but I'll have to do
You know I know girl, you can't keep me guessing
It's the same old plan but your name's been engraved in blue
You know my way girl, I've learned my lessonGirl, I can see you cry
Don't tell me baby
And girl, if you must confide
Don't tell me baby, closerIn the time it takes for you to think it over
I'll be closer than the sequins on your shoulder
But won't you think it over, girlDon't tell me baby
Don't tell me baby
Don't tell me baby, girl
