Your Life and Mine

Just Surrender

i can see from across the room
theres a tear in your storied eye
i was leaving but im coming back
since your heart should be with mine

that mark didnt do you right
when you left in your best friends ride
with the face of angel, girl
you deserve to be treated more than right

realized i was passing through
from the moment i saw you i was hypnotized
couldnt wait to get you alone
so i could walk with you
so i could talk with you, oh

go ahead and call your friends
ill do whatever it takes so, i can make you trust
this parties going south
let me know whats going on with us

[Chorus]
cause it all right
theres nothing to stop us
if it feels right
then every things fine
for just one night
baby, go back to your life
and ill go back to mine

last night i saw a photograph
from the party where we chilled
(party where we chilled)

it was showing the two of us
and the colt 45 we killed
(colt 45 we killed)

here i'm just writing you a letter
from the distance past

enclosed is a photograph
to remind you of the times we had

[Chorus]
cause its all right
there nothing to stop us
if it feels right
then every things fine
for just one night
baby, go back to your life
and ill go back to mine

its all right
(we can make it if we want to, baby)
its all right
(i would love to show you the way)
for tonight
(and im not talking about forever)
im just talking tonight

i can see from across the room
theres a tear in your storied eye
i was leaving but im coming back
since your heart should be with mine

that mark didnt do you right
when you left in your best friends ride
with the face of an angel, girl
you deserve to be treated more than right

[chorus]
cause its all right
theres nothing to stop us
if it feels right
then every things fine
for just one night
baby, go back to your life
and ill go back to mine

cause its all right
theres nothing to stop us
if it feels right
then everythings fine
for just one night
baby, go back to your life
and ill go back to mine

(dont you know, girl, that)
and ill go back to mine
