

Deep Web

Bowsar

[Verse 1]

Both ends of my candle counting paces

Never stop chasing each others faces

I'm the mask that separates them

Bridge their sole desires cravin'

Don't make me take my face off

 Show you why I hate soft

Let flock of sheep get shaved off

 Lynched from their halos[Hook]

Call me crazy, but I swear my line's been tapped

In my glass house prepared for surprise attack

 Realized I held the blade inside my back

 Omega megalomaniac

In my glass house prepared for surprise attack

Realized I held the blade inside my back[Verse 2]

 I'm the coat hanger in your man's vagina

 Manic downstroke on fire

 Beat it, bitch, all black, can't fade it

 Beat it, bitch, I came to brang it

 Fuck bourgeois, ODB raw

 Your pearl white teeth, my Yellowman jaw

 Say only what you think I know you should

 Hate myself more than you ever could[Hook]

Call me crazy, but I swear my line's been tapped

In my glass house prepared for surprise attack

 Realized I held the blade inside my back

 Omega megalomaniac

In my glass house prepared for surprise attack

 Realized I held the blade inside my back
