

M.A.D. (Accelerated)

Hadouken!

We drop beats
That'll crack your cranium
Bring it on
You can bang the drum
You can bang the drum Bring it on
You can bang the drum
You can bang the drum We will play along
We will play along Pop goes the pot its pandemonium
Poison the sushi with plutonium
We eat enriched uranium
We drop beats that'll crack your cranium We call shots and the beats are rolling on
When the beats drop you'll get hold of em
Solder them
And we about to blow
With a fuck you fuck you ? a ? You wanna go son
You wanna go son
You wanna spar You wanna go son
We can bang the drum at your door You wanna go son
You wanna go son
You wanna spar You wanna go son
We can bang the drum at your door Bring it on
You can bang the drum
You can bang the drum What've we started here
What've we done the outcome is always clear
The path chosen surely assured
Now what are you waiting for
