Invisible

[Big Time Rush](#)

Do you ever wonder, when you listen to the thunder
And your world just feels so small
Put yourself on the line and time after time
Keep feeling inside like they don't know you're alive
Are you on their mind or just invisibleBut I won't let you fall
I see you, through them all
And I just wanna let you knowOh, when the lights go down in the city
You'll be right there shining bright
You're a star the sky's the limit
And I'll be right by your side
Oh, you know, you're not invisible to me
Oh, you know, you're not gonna be invisibleDo you ever think of, what you're standing at the brink of
Feel like giving up, but you just can't walk away
And night after night, always trying to decide
Are you gonna speak out or get lost in the crowd
Do you take a chance or stay invisibleBut I won't let you fall
I see you, through them all
And I just wanna let you knowOh, when the lights go down in the city
You'll be right there shining bright
You're a star the sky's the limit
And I'll be right by your side
Oh, you know, you're not invisible to me
Oh, you know, you're not gonna be invisibleDon't gotta look far, I'll be where you are
I wish you could see what I see
So don't ask why, just look inside
Baby that's all you need
And I don't understand why you won't (you won't)
Take my hand and go
Cause you're so beautiful
And everytime thatOh, when the lights go down in the city
You'll be right there shining bright
You're a star the sky's the limit
And I'll be right by your side
Oh, you know, you're not invisible to me
Oh, you know, you're not gonna be invisibleOh, when the lights go down in the city
You'll be right there shining bright
You're a star and the sky's the limit
And I'll be right by your side
Oh, you know, you're not invisible to me

Oh, you know, you're not gonna be invisible
