## Jackhammer

Slip away out the back door  
Get away from the scenery score  
In the car, you're ready to move  
In the backseat, you start to groove Right turn, left turn  
Got the boys in both hands  
Playin' in stereo  
Like you do with most bands Unlocking the door  
I can tell you, can't wait  
Seekin' power rockin'  
Girl, you love to vibrate Can't get to sleep 'cause I hear you squealin'  
Like a stuck little pig, you love the feelin'  
I wish, you'd shut up 'cause I'm tryin' to sleep  
I'm gonna gag, you gonna push it down deep Running out of breath  
You're chokin' fast  
You begin to sputter  
You're not gonna last Jackhammer, pounding your pile  
Jackhammer, you're gonna cream  
Jackhammer that's your style  
Jackhammer, you're gonna scream There you go again with your dirty little mind  
Trying to turn me on, won't happen this time  
Hangin' around and that won't do  
Nothing on my mind but gettin' rid of you Time for you to leave  
Can't take no more  
Just wanna see you  
Walking out the door
