Media Control

The Briggs

What are you willing to fight?
Are you afraid that you just might
Find something that you're afraid of
And run away in frightWell I ain't gonna take it anymore
(What do you say?)
'Cause I know what you're fucking with me for
(What do you say?)
You're trying to keep me down from seeing what's beyond that doorThe truth is not what you see
(Media control)
Selling chaos on TV
(Media control)The truth is not what you see
(Media control)
Selling chaos on TV
But don't think you fooled meYou know the words but you can't sing the tune
1939 it all happened too soon
But you played it like you meant to lose
You tied your fate right in a nooseBut if sanity is my TV
(What do you say?)
Than I don't know whats happened to me
(What do you say?)
Your lies are a billboard telling me that I can't really seeThe truth is not what you see
(Media control)
Selling chaos on TV
(Media control)The truth is not what you see
(Media control)
Selling chaos on TV
But don't think you fooled meI won't take to long to tell you all so long
I ain't ever coming back coming backThe truth is not what you see
(Media control)
Selling chaos on TV
(Media control)The truth is not what you see
(Media control)
Selling chaos on TV
But don't think you fooled meDon't think you fooled me
