

# Free love

## Lolly Pop

She moves so quick, she moves so fast  
She moves so quick, she make the good times last  
She said that even in the mornin' said you know it's on  
Even in the mornin'  
Free love, free love  
Free love, free love, love, love, love  
She like it rough, she bendin' bones  
She starts a screamin' when she's ready to go  
She said that even in the mornin' said you know that it's on  
Even in the mornin'  
Free love, free love  
Free love, free love, love, love, love  
Pretty girl, come with me, two on two, three on three  
Passion is the flavor climbin' up this tree  
Make a fuss, move around, keep it on the underground  
Just beneath the covers I can see the sea  
She knockin' knees so full of pride  
She make the move 'cause she's got nothin' to hide  
She said that even in the mornin' said you know that it's on  
Even in the mornin'  
Free love, free love  
Free love, free love, love, love, love  
Free love, free love  
Free love, free love  
Free love, free love  
Free love, love, love, love  
Love, love, love, love, love  
Free love
