

# Use Me

## Gucci Mane

Sedate me  
Salacious, salty, and sweet  
I'm overwhelmed by tasty thoughts of you  
Day dream  
My body waving the white flag  
Take me (yea babe)  
Now I know I'm sober  
It's just so profound  
That every wall I built up  
Has come crashing down  
Don't the waves pull the sand  
Don't the moon pull the tide (babe)  
I love you  
Use me (yeah)  
Wanna give you control  
With the lights off  
If I could just let go  
Forgive me, it's the very first time  
And I'm nervous  
Can I trust you?
