

# Effigy

## Ccr (creedence Clearwater Revival)

burn the bed  
consummated  
rest the head  
it just holds us back now  
still she keeps on looking  
of course [2x]  
nows theres nothing I hate as much  
wet the lips  
shut your pretty mouth  
use the kiss  
tommorrow fails to exist  
still she keeps on looking  
of course [2x]  
now theres nothing I  
it all surfaces in this light  
words under my breath  
taking my time  
breaking your smile  
feed the wish

let it flourish  
head for shore  
let me haunt you  
still she keeps on looking  
now theres nothing I hate as much [2x]  
I will sleep  
(It all surfaces in this light)  
throughout the infection  
fast asleep  
where nothing can find me  
words under my breath  
taking my time  
breaking your smile  
everyone goes away  
I cant even try  
I watched you slip away
