

Until We Die

Zorita

Verse 1:

Your lips, they once were soft and sweet
But now they're covered with tears of regret
Mistrust, disgust, throw at me what you must
But this story just ain't over yet

Chorus:
Oh, Until we die, until we die, until we die

Verse 2:
All your allegations at my expence
All those fucked up little white lies
To not get hurt. Baby take my word
It is you, not me, to despise

Verse 3:
You might get hurt and you might be in doubt
My mind is all made up

One drop of your love just ain't enough
I'd drink it all from the poison cup
Chorus:
Oh, Until we die, until we die, until we die

Verse 4:
Now take this dagger, my sweet little girl
Kill the demons inside your head
Drain their blood, wash your feet from the mudd
Walk with me down the road up ahead
Chorus:
Oh, Until we die, until we die, until we die
