

New Light

Woods

With all this light that surrounds me
Dreams of color will be by your side
May we all sleep tonight Those thoughts of you they escape me
Burning bright white we seep into sun
May we all sleep tonight Your only hope for tomorrow is start anew
What's burning inside soon burns out of you With all this light that surrounds me
Dreams of color will be by your side
May we all sleep tonight Those thoughts of you still escape me
Burning bright white we seep into sun
May we all sleep tonight Your only hope for tomorrow is start anew
What burns inside soon burns out of you
Your only hope for tomorrow is start a new
What burns inside soon burns out of you
