

Give It Time

[hoops](#)

Give it time and I'll be
Just where I used to be
With my days passing by
With my love next to me Easy come, easy go
As they say, now they don't
Such a time, what a life
I will own I can see it float
Where does time go?
I can see you so
Where does time go?
Here it comes, now to me
See the one of my dreams
Raise my glass raise my clouds
Hunger now to receive In a way in my room
For the light to consume
Give it time it will all
Happen soon
I can see it float
Where does time go?
I can see you so
Where does time go?
