

Light Up the Spliff

Bizzy Bone

Yeah

Just sit back, relax, and come in enjoy the facts

Just sit back, relax, come in enjoy the facts Movin' on the promise lands, let me be honest man

Don't shape shift and dis the gifted, lifted

Light up the spliff man Just sit back, relax, and come in enjoy the facts I'm movin' on the promise lands, let me
be honest man

Don't shape shift and dis the gifted, lifted

Light up the spliff man Just kick back, relax, and come in enjoy the facts y'all Sandals we seekin', candle I need
no babylon, feelin' opressed

Don't even stress the word (?), cause we the champion's

Champagne be poppin', we limo drivin' side by side

And yes we get it on, one time most definitely

Further the mind, shallow waters and know life

Give me that water and love, we gotta make it together

Remember it's only one

In the name of the Father the Son and the Holy Spirit come

Tobacco, we goin' fishin' with the tackel, catchin' the snapper

Further the mind of grapple, diamond and ruby shinin'

Blue as a sapphire, and we're watched dreams

Somebody pass me the lighter, cause we champion's

And we lookin' for them good pastures, lookin' for good pastures

Cause in my water feelin' so captured, look up and see the flowers

Heavenly Father thank you, I'm leanin' back and stayin' faithful Ha, Ha, Ha... That's right... Welcome back

Bizzy Bone

Show these motherfuckers what time it is homi... And the slums ain't the slums, and the bums ain't the bums

And this money ain't the money, money you know where we from

And the slums ain't the slums, and the bums ain't the bums

And this money ain't that money, baby you know where we from Movin' on the promise lands, let me be honest
man

Don't shape shift and dis the gifted, lifted

Light up the spliff man Just sit back, relax, and come in enjoy the facts I'm movin' on the promise lands, let me
be honest man

Don't shape shift and dis the gifted, lifted

Light up the spliff man Just kick back, relax, come in enjoy the facts y'all See as we pay attention, little children
they are listening

All pay attention to the best that you can

You my homeboy, my friend, here to the very end

So many things I wanna tell you bang I'm ready to start

I really love you for the pressin' of all

When a we surrounded by the people, whatever you want
Indians, little baby is it just Flesh {mumbling} I love you
Yes I confess, the test of the faithful
Helpin' me set 'em through, may we float
And accept what you gave us and never go
So I praise you I thank you and tryin to relax
Dear grandpa your faithful servant is back
Because I love you And the bums ain't the bums
And this money ain't the money, money you know where we from
And the slums ain't the slums, and the bums ain't the bums
And this money ain't the money, money you know where we from
And the slums ain't the slums, and the bums ain't the bums And this money ain't the money, baby you know
where we from
And the slums ain't the slums, and the bums ain't the bums
And this money ain't the money, money you know where we from
One love...Movin' on the promise lands, let me be honest man
Don't shape shift and dis the gifted, lifted
Light up the spliff man Just sit back, relax, and come in enjoy the facts I'm movin' on the promise lands, let me
be honest man
Don't shape shift and dis the gifted, lifted
Light up the spliff man Just kick back, relax, and come in enjoy the facts
Much love...
