

# Never

## Rosetta Stone

bliss is denial  
denial is yours  
yours is ur trial  
break that that won't change  
i don't feel like i belong  
can you concede that i wish you no harm  
i don't feel like i belong  
twenty six yours twenty five of them wrong  
truth is things have never been better  
why lie  
this is disease  
this disease is yours  
your turn to fall to your knees  
denial is yours
