

Numb & Dumb

Otep

I'm tired of being tired, sick of being sick
I'm tired of being tired, sick of being sick Erase and escape, meat hooks of reality
Erase and escape, meat hooks of reality
Lock the door, load your guns and pray for nothing I don't care, I don't care, I don't care
I don't care, I don't care, I don't care And daddy's shooting smack and mama's smoking crack
And teacher is a sex addict and preacher has a porn habit
And sister's such a whore and my life is a bore Take your vitamins, whiten your teeth
Comb your hair, know when to speak
They say Jesus was a masochist
But maybe they said pacifist Oh, sweet goddess of narcotics on my knees I pray
Just give me one more dose and make it all go away Make me completely numb and dumb
Make me completely numb and dumb
Make me completely numb and dumb
Make me come Watch your tone, obey the law
Know when to bend, believe in God I took his wife into my mouth like a slice of wedding cake
I went back for extra helpings and then I cleaned my plate
Still covered in her yolk, the wet drug of my addiction
I'm nature's little criminal, a selfish crucifixion Oh, sweet scarecrow in the sky
You have all the answers but we will never die Sweet goddess of narcotics on my knees I pray
Just give me one more dose and make it all go away Make me completely numb and dumb
Make me completely numb and dumb
Make me completely numb and dumb
Make me come I ran out the front door, the devil's at the back door
Whispering to the sea
And above a black feathered sun drunk on teenage meat I don't care, I don't care, I don't care
I don't care, I don't care, I don't care Make me completely numb and dumb
Make me completely numb and dumb
Make me completely numb and dumb
Make me come Medicate and sedate
Pass the punishment, need a fix
Medicate and sedate
Pass the punishment, need a fix Pass the punishment, I need another fix
Pass the punishment, need a fix
