

I'm Different

Dave Hollister

I don't know what you're used to,
But I'm about to change your mind
Little physical persuasion
Every woman wants quality time
Let me know what you're into
It's probably already on my list
I'll pay attention to all of the details,
Trust me, there ain't no requests to leek that Make you think that I'm from another world, baby

I'll do you better, down to the letter
Disappoint you never
'Cause I'm different
It don't matter who came before me, girl
'Cause you're gonna forget him
Erase the day you met him
Wonder why you was ever with him
'Cause I'm different Before you get all in your head
Thinking this is too good to be true
Let me let you in on a little secret

My rows are different, too
Don't X me for my black card (I ain't that easy)
Way to early be buying cars (Just fine with me)
Play your position, pay your dues
There won't be nothing I won't do for you You can trust me with your heart
Don't you worry about a thing
And if you'd ever been lonely,
You'll never be the lonely again

I like to dream about you (what you dream about?)
Wake up and dream it out, now
This is what you've been looking for
Now it's time to love again Make you think that I'm from another world, baby

I'll do you better, down to the letter
Disappoint you never,
'Cause I'm different
It don't matter who came before me, girl

'Cause you're gonna forget him
Erase the day you met him
Wonder why you was ever with him
'Cause I'm different Make you think that I'm from another world, baby (Think that I'm from another world, uuh)
I'll do you better, down to the letter (do it better, down to)

Disappoint you never, (disappoint you never, oh-oh)
'Cause I'm different
It don't matter who came before me, girl (it don't matter who came before me)
'Cause you're gonna forget him (you're gonna forget him)
Erase the day you met him (erase the day)
Wonder why you was ever with him
