Treasure

Urban Cone

We should throw it in the ocean
Our treasure in the back yard
You can watch but never touch it
Like the sunWe were born in society
Trapped with the enemy
Now we've founded infinity
It was right here
In between us
In between us
In between us
In between us
We found the treasure
In between usWe found the treasure
In between usWe found the treasure
In between us
We found the treasure
In between us
We found the treasure
In between us
We found the treasure
In between us
We found the treasure
In between us
We found the treasure
In between us
We found the treasure
In between us
We found the treasure
In between usWe were born in society
Trapped with the enemy
Now we've founded infinity
It was right here
In between us
In between us
In between us
In between us
We found the treasure
In between us
