

Cured

Sunk Loto

Last night I talked to you
A waste of my time
But now I know
I'm not welcome anymore
You killed my soul with love
And cured the cancer
I can't find you
Since you're so young and dumb
And so you know the answers
I've had enough of you
So save the letters
Don't come back, don't come back
Cos I've known you before
