

# Sky Is Over (Fawk Yeah Remix)

Serj Tankian

Everybody knows  
Everybody knows  
That you cradle the sun  
Living in remorse, sky is over Don't you want to hold me, baby?  
Disappointed, going crazy Even though we can't afford  
The sky is over  
Even though we can't afford  
The sky is over I don't wanna see you go  
The sky is over  
Even though we can't afford  
The sky is over Behind closed eyes lie  
The mind's ready to awaken you  
Are you at war with land  
And all of its creatures? You're not so gentle  
Persuasion has been known  
To wreck economies of countries, of empires  
The sky is over Don't you want to hold me, baby?  
Disappointed, going crazy Not even from the sun  
Not even from the sun  
Not even from the sun  
Don't you want me to run? Even though we can't afford  
The sky is over  
Even though we can't afford  
The sky is over I don't wanna see you go  
The sky is over  
Even though we can't afford  
The sky is over I don't wanna see you go  
The sky is over  
Even though we can't afford  
The sky is over I don't wanna see you go  
The sky is over  
Even though we can't afford  
The sky is over, sky is over us
