

The Fad

Chevelle

Soon the men taste their own normalcy
Ends that day consumed by all
Irrational thoughts depend
Then change their tasteLet's call it change
Let's call it changeWhat's the fad hail the aces
If you care, if you hate it
What's the fad hail the aces
If you care, if you hate itI got the violence
I got the violenceTrue to form, he's blind as his taste for cheat
Hand the bliss, he loves to bend beyond the card
So count us in to that Gucci clan
About faceLet's call it choice
I'll call it a fadWhat's the fad hail the aces
If you care, if you hate it
What's the fad hail the aces
If you care, if you hate itI got the violence
I got the violence
I got the violence
I got the violenceSo sell your voodoo
And recognize this
Your last and only score
But you hung up on your strikesWhat's the fad hail the aces
If you care, if you hate it
What's the fad hail the aces
If you care, if you hate itWhat's the fad
What's the fad
What's the fad
What's the fad I bought itI got the violence
I got the violence
