

Call It Rock 'N Roll

Great White

Oh yeah, sounds familiar, let's rock it man Well there's somethin' goin' down right here in the neighborhood
Yeah there's somethin' goin' down don't know if you really should
Don'tcha lose your head I'll make your heart feel good Well there's trouble all around, trouble with the P.T.A.
Tell me whatcha gonna do takin' all our highs away
S'enuff to turn you round but Momma not today C'mon little baby let's call it rock n' roll
C'mon little baby let's call it rock n' roll
Gonna get a good feelin' right down to your soul, guitar Now your Papa's gettin' down, Momma sayin' you're
no good
Baby it's a shame, it's never really understood
How a dose of rock n' roll can make your heart feel good C'mon little baby let's call it rock n' roll
C'mon little mama let's call it rock n' roll
Gonna get a good feelin' right down to your soul C'mon little baby let's call it rock n' roll
C'mon little honey let's call it rock n' roll
Gonna get a good feelin' right down to your soul, get it boy I say yeah, yeah, call it rock n' roll
I say yeah, yeah, call it rock n' roll
Gonna get a good feelin' right down to your soul
Gonna get a good feelin' right down to your soul
Gonna get a good feelin' right down to your soul, yeah
