

# Boy

## Emma Louise

You got sparks  
It's not enough and we make time  
And speak in sheets  
Enclosed doors to turn our words(Chorus)  
All you do is lay around  
Spending time  
Smoking cigarettes  
Boy you know your heart's so big  
And you could love  
Give her all you got  
Sitting in clouds of smoke  
When you're all alone , why  
Talking to me on the phone  
When you feeling lone(Verse)  
We make plans  
But you don't see them  
Keep in space And open eyes  
And then realize  
You're not anywhere(Chorus)  
All you do is lay around  
Spending time  
Smoking cigarettes  
Boy you know your heart's so big  
And you could love  
Give her all you got  
Sitting in clouds of smoke  
When you're all alone , why  
Talking to me on the phone  
When you feeling lone Feel your love's waiting , waiting  
Feel your love's waiting , waiting(Chorus) x2  
All you do is lay around  
Spending time  
Smoking cigarettes  
Boy you know your heart's so big  
And you could love  
Give her all you got  
Sitting in clouds of smoke  
When you're all alone , why  
Talking to me on the phone

When you feeling lone
