No Moon

Pete Shelley

You're not of this world
You shine above me
I reflect below
You're so familiar
Yet ever changing
You go where I goBut sometimes when I really need you
I look for you and find you've goneWill I escape from
This empty feeling
So lonely inside
Could I get thunder
To sing of silence
And surge with the tideBut sometimes when I really need you
I look for you and find you've goneI know you'll come back
You won't forsake me
So I'll just carry onBut sometimes when I really need you
I look for you and find you've goneI know you'll come back
You won't forsake me
So I'll just carry on
