

Take Our Time

TLC

Let's take our time baby
Love lasts forever
Over and over
We'll love together Come here next to me
And let me make you high
No mistakes we will make
A long time we will love Let's take our time baby (Oh let's take our time)
Love lasts forever (I wanna go, I wanna go)
Over and over
We'll love together Kiss me hold me tight
And let's get wet tonight
Happiness is pleasing you
So let me make you cry Let's take our time baby
Love last forever (I wanna make you cry)
Over and over
We'll love together Slowly deep inside me
Hold me and kiss my body
Only you can make me
Oh so easy Slowly deep inside me
Hold me and kiss my body
Only you can make me
Oh so easy Let's take our time baby
Love last forever (I wanna know, I wanna know, yeah)
Over and over (Over and over, keep it going)
We'll love together
