

# Fear Is a Place to Live

## Korn

I feel you all around me  
Your voice, it surrounds me  
You keep telling me what I want to hear You're beautiful, so talented, I need you, we got a thing  
You ever need something I'll be right there Fear is a place to live  
Rip off the mask from your head  
Show me the real face that you hide I see you from a mile away  
Keep staring, acting like you gotta say You're beautiful, so talented, I need you, we got a thing  
You ever need something I'll be right here Fear is a place to live  
Rip off the mask from your head  
Show me the real face that you hide Fake ass people surround me  
They're always nice to begin  
Digging their claws Fake ass people surround me  
Digging their claws right in me  
They're always nice to begin but  
I always get fucked in the end Fake ass people surround me  
Digging their claws right in me  
They're always nice to begin but  
I always get fucked in the end  
I always get fucked in the end  
I always get fucked in the end  
I always get fucked in the end  
I always get fucked in the end Fear is a place to live  
Rip off the mask from your head  
Show me the real face that you hide FAKE ASS, FAKE ASS Fear is a place to live  
Rip off the mask from your head  
Show me the real face that you hide
